## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 15 October 2007 has been entered.

### ***Allowable Subject Matter***

Claims 1-30 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or make obvious a provisioning system including an ontology depository having at least one domain-specific ontology model accessible over the Internet for a particular presence application and a presence entity operable to reference the domain-specific ontology model, the ontology model including abstracted entities appropriately classified, relationships among the entities and information about how to collect presence data from persons, places and things in combination with all the limitations recited in independent claims 1 and 21. Independent claim 11 corresponds to the method for the system of claim 1, thus is also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ryngler et al (US 2003/0182394) teach providing context awareness.

Gourraud (US 2004/0122896) teaches transmission of application information and commands using presence technology.

Gupta et al (US 6,771,991) teach graphics and variable presence architecture and method in wireless communication networks, mobile handsets.
